

Entry number: 1

Date: 2026-09-25

AI tool/model: ChatGPT; GPT-5.6 Luna

Task ID/Title: User Stories #1-#10 Generated by AI

Purpose of AI Use: Generating and brainstorming User Stories

Chat Link: <https://chatgpt.com/share/6ab6b09d-3784-83ea-883b-a60ee51e6146>

AI-Suggested Content:

The AI generated the following 10 user stories for CareerConnect:

1. Create an account
2. Log in
3. Manage my profile
4. Upload a resume
5. Search for jobs
6. Filter job listings
7. Apply for a job
8. Track application status
9. Save jobs
10. Receive application reminders

Validation:

Each User story covers the basic features of Career Connect and cover basic functionalities that a user will need.

Decision: Accepted

The entire team reviewed each user generated stories and agreed that they were good for the project.

Reflection: AI was a useful in this instance as it acts as a user itself and aligns with our requirements for this project.

Responsible Person: Matthew Lazarov
